INSTALLATION INSTRUCTIONS V90163

CONTINUOUS CHANNEL SERIES

Model: Truly Trimless Adjustable Downlight

Avoid Fire or Electric Shock

*Installation Instructions for qualified electricians only.
*Install per National Electrical Code and local regulations.
*Read Installation Instructions completely before installation.
*Failure to follow Installation Instructions may void warranties.

Housing Connection

NOTE: Housing Sections MUST be connected per Alpha-numeric coded labels for best fit.

2 SECTIONS:

1. Align Left Section with Right Section per alpha-numeric code. See Fig. 2.
2. Align Connector Bar and Mating Section Holes. See Fig. 3.
3. Secure Sections together using #10 Flathead Screws at Connector Bars on each side of Sections.

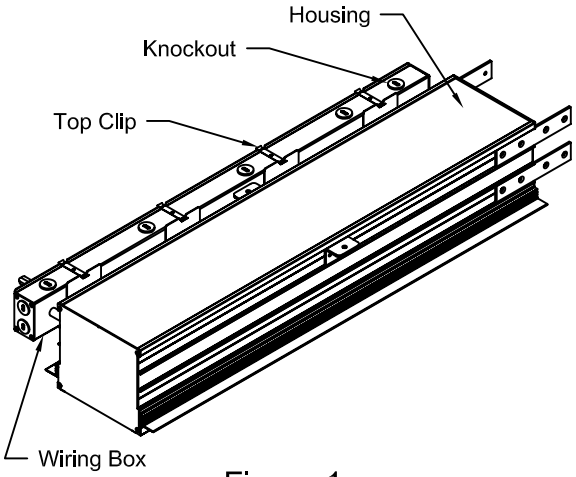

Figure 1
(Single Left Hand Section Shown)

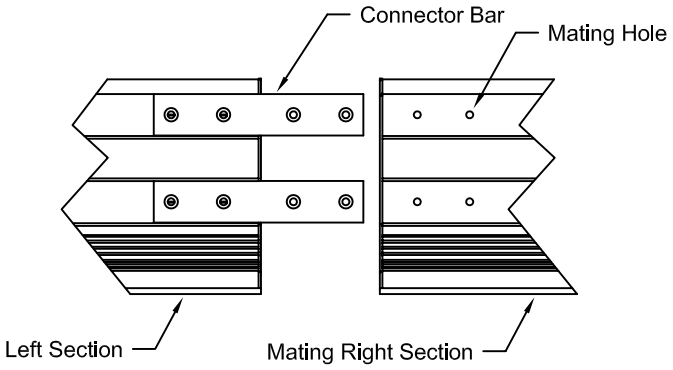

Figure 3

Housing Connection (Con't)

3 SECTIONS:

4. Locate Right, Left and Middle Sections by alpha-numeric code.
5. Align Right Section, Left Section, and Middle Section. See Fig. 2.
6. Align Connector Bar and Mating Section Holes. See Fig. 3.

NOTE: Connector Bars may be staggered to insure alignment with correct mating Section.

7. Secure Sections together using #10 Flathead Screws at Connector Bars on each side of Sections.

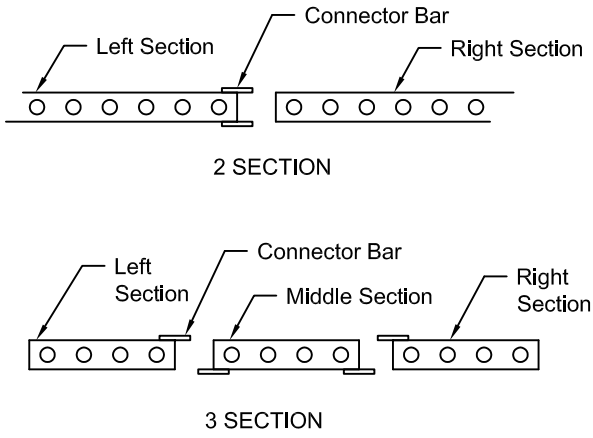

Figure 2

Fixture Mounting

1. Hang Housing(s) from Hanger Brackets located on sides of Fixture(s) using 1/4-20 Screw. See Fig. 1 and Fig. 3.
2. Adjust elevation of Housing so that Adjustable Extrusion Frame (set to 5/8" thickness at factory) will sit on top of installed Drywall and bottom of Housing walls match bottom of Drywall surface. See Fig. 4.
3. Install Drywall to edge of Housing. See Fig. 4.
